**STRATEGIC TEAMING AND RESOURCE SHARING (STARS)  
ADVANCE NOTIFICATION OF  
INTENT TO PURSUE LICENSE RENEWAL**

Reference: Wolf Creek Nuclear Operating Corporation (WCNOC) letter dated July 22, 2003, from Richard A. Muench, WCNOC, to USNRC entitled, "Docket: 50-482: Advance Notification of Intent to Pursue License Renewal"

Gentlemen:

The Strategic Teaming and Resource Sharing (STARS) nuclear power plants except the Callaway Plant are creating a center of business to jointly prepare and support the review of license renewal applications for selected STARS plants. Not all STARS plants have made a decision to pursue license renewal. Nuclear Regulatory Commission (NRC) Regulatory Issue Summary (RIS) 2003-02, "Importance of Giving NRC Advance Notice of Intent to Pursue License Renewal," dated February 3, 2003, requested licensees to provide a voluntary submission of licensee plans regarding license renewal. This voluntary submission is intended to assist the NRC in its budgeting and planning process.

By the letter referenced above, Wolf Creek Nuclear Operating Corporation (WCNOC) notified the NRC of its intent to pursue license renewal for Wolf Creek Generating Station (WCGS), Unit 1. The letter stated that WCNOC intends to submit a license renewal application in accordance with 10 CFR Part 54 in September of 2006. This will be the first application developed by the STARS center of business.
